

Welcome to the Al Cerone Twilight League.

2016

General rules:

- We have the tee from 3:00 to 6:00 PM on Wednesdays. **The pro shop may allow non-league players to tee off when the tee is open.**
- This is an individual league, you only have yourself to blame.
- First come first off, create your own foursome or join up when you get there.
- You may also play anytime during the day on Wednesday as long as you play the scheduled nine. You will need to check with the clubhouse to make sure that nine is available.
- Play from the white tees.
- USGA Summer rules during normal course conditions.
- However, this is a fun league. Lift, clean and place during abnormal conditions is up to your group.
- Scorecards must be filled out, signed, attested and placed in the Twilight League box in the East Club House each week (enter your gross score for each hole).
- You must still enter your ESC score in the computer for GHIN handicap purposes.
- League standings are posted weekly on the club bulletin board and on the internet at <http://www.wgcmemberinfo.com/memberleagues.htm>
- The player with the highest cumulative score at the end of the season is the winner.

Points calculation:

Scores for 15 weeks will be used. That allows you to miss up to 5 weeks without penalty.

If you play more than 15 weeks, then only your 15 highest points totals will be used.

Points are determined as follows:

Weekly points = $(100 - (\text{league ESC score} - \text{league handicap}))$

Example:

Your league handicap is 10, you shoot 50 with a 10 on one hole.

The max you can take on any hole is 8, so your ESC score is 48.

$(100 - (48 - 10)) = 62$.

Your points for the week are 62.

Handicap calculation:

We do NOT use GHIN handicap for the league.

Returning members' handicap will pick up from last year (see week5 below)

New member handicap will be calculated as follows:

Week1: 70% of $(\text{ESC} - 36)$, nothing greater than a triple bogie will be used.

Week2: Calculate ESC using week1 handicap, then 80% of $((\text{ESC1} + \text{ESC2} - 72)/2)$.

Week3: 90% of $((\text{ESC1} + \text{ESC2} + \text{ESC3} - 108)/3)$.

Week4: 90% of $((\text{ESC1} + \text{ESC2} + \text{ESC3} + \text{ESC4} - 144)/4)$.

Week5 and beyond: 90% of $((\text{Sum of last 5 ESC} - 180)/5)$.

No adjustment is made for playing on the West side (par 35).

Example:

You shoot ESC scores of 45, 50, 48, 52 and 47.

$((45 + 50 + 48 + 52 + 47) - 180)/5 = (242 - 180)/5 = 62/5 = 12.4 \times 90\% = 11.16 = 11$

Your handicap is 11.

ESC scores are calculated as follows:

9 Hole handicap	Max strokes allowed
1 - 4	Double Bogie
5 - 9	7
10 - 14	8
15 - 19	9
20 - 24	10
25 +	11
